In case of a paid up policy, bonuses shall be payable only if, at least, 3 full years' premiums have been paid. On surrender, the discounted value of vested bonuses, if any, will be payable. Final (Additional) Bonus may also be declared in addition.

## 11. Paid-up Value:

Not withstanding the death benefit provided under the Auto Cover period, if at least three full years' premiums have been paid and any subsequent premium be not duly paid, this policy shall not be wholly void but shall become paid-up.

If policy becomes paid-up before the commencement of risk, then the policy shall be entitled to receive the Guaranteed Surrender Value. If the policy is not surrendered, this Guaranteed Surrender Value shall be payable on the expiry of policy term or on death of Life Assured, if earlier.

If policy becomes paid-up after the commencement of risk, then the sum assured of policy shall be reduced to such a sum, called paid-up value, as shall bear the same proportion to the full Sum Assured as the number of premiums actually paid bears to the total number of premiums stipulated for in the policy. ii.) After commencement of risk: $90 \%$ of the total amount of premiums (excluding premium for the first year) paid before commencement of risk and $30 \%$ of premiums paid on and after the commencement of risk.

The Guaranteed Surrender value calculated above will be subject to the deduction of the total amount of survival benefits that might have become due on or before the date of surrender. Further all extra premiums and/or any other premium including premium for Premium Waiver Benefit shall not be considered in the premiums refunded.

The cash value of any existing vested bonuses, if any, will also be paid.
Corporation may, however, pay Special Surrender value as the discounted value of Paid up value and existing vested bonus, as applicable on date of surrender. The Special Surrender value will be subject to the deduction of the survival benefits which have become due on or before the date of surrender.

The Special Surrender value will be payable provided the same is higher than Guaranteed Surrender value.

## 13. Grace Period:

A grace period of one calendar month but not less than 30 days will be allowed for payment of premiums.

## 14. Revival:

## BENEFIT ILLUSTRATION :

## Statutory warning :

"Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your Insurer carrying on life insurance business. If your policy offers guaranteed returns then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable returns then the illustrations on this page will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance."

Notes:
i) This illustration is applicable to a standard (from medical, life style and occupation point of view) life.
ii) The non-guaranteed benefits (1) and (2) in above illustration are calculated so that they are consistent with the Projected Investment Rate of Return assumption of $6 \%$ p.a.(Scenario 1) and $10 \%$ p.a. (Scenario 2) respectively. In other words, in preparing this benefit illustration, it is assumed that the Projected Investment Rate of Return that LICI will be able to earn throughout the term of the policy will be $6 \%$ p.a. or $10 \%$ p.a., as the case may be. The Projected Investment Rate of Return is not guaranteed.
iii) The main objective of the illustration is that the client is able to appreciate the features of the product and the flow of benefits in different circumstances with some level of quantification.
