Clarification on RFP For HANA Hardware and Services

Ref: LIC/CO/INVM/IIRMS/RFP/2021-2022/Clarification

Date: May14, 2021

Sub: **Clarification** to 'RFP For Procurement of HANA Hardware and Services (migration, development and managing of Investment System) for Life Insurance Corporation of India'
Ref: LIC/CO/INVM/IIRMS/RFP/2021-2022/1 dated 08-Apr-2021

We have received queries from some bidders seeking clarification on infrastructure requirement --**if a bidder can quote solution from multiple OEMs as option 1, option 2 etc.**

LICs Response: Attention of all concerned is drawn to Page-31, Point 1 of RFP document, which says that *inter-alia*, "Only one bid from one bidder shall be accepted". Proposing multiple OEMs as multiple options for Infrastructure requirement shall be construed as multiple bids and hence the same shall not be entertained. In other words, Bidder is to propose **only one solution**, the best suitable, infrastructure solution. Bidders submitting multiple solutions shall be summarily disqualified.

Team LIC
